

## Apply for a Grant

### About SUEZ Community Grants

SUEZ community grants program will partner with projects that fit with our core philosophy that by supporting local activities and growing community participation in social and environmental projects, we can help create a sustainable future.

We aim to identify and assist a range of grassroots organisations that make a profound difference to the community, but too often struggle to attract financial support to achieve their goals.

Through our community grants program, SUEZ is calling for applications from organisations for projects that will have a positive and sustainable impact on Australian communities.

It is important that your project or activity meets at least one of SUEZ key focus areas:

- Encourage community involvement and improve the quality of the local environment;
- Develop environmental awareness and inspire participation in sustainable activities through education;
- Contribute to improved human health and wellbeing; and/or
- Support and encourage recreation and community building.

It is important to note that upon advice your grant application is successful, SUEZ must be provided with the bank account details of a legal entity with an ABN. If your project, activity or group does not have an ABN, please locate an auspice organisation to assist prior to beginning the application process.

We look forward to receiving your application!

### Auspiced Project

In the context of grant applications, an auspice organisation is one that actually receives the grant money on your behalf. They also have the responsibility for making sure that the funded project gets completed on time.

If your organisation does not have an ABN, you must provide the details of an auspice organisation who can receive funding on your behalf.

If your project is auspiced, the partner organisation must be a registered legal entity with an ABN.

Please ensure you have the approval of the auspice organisation before continuing with your application.
