AUTISM SUPPORT FOR FAMILIES IN BLACKTOWN

See www.autismcommunity.org.au for more details

A COMMUNITY OF SUPPORT FOR AUTISM

The Autism Community Network (ACN) is a charity focused around building a strong community of support for autism. We use our combined knowledge and experiences as carers or individuals in the 'autism community' to help each other.

With over 1,200 families across 13 Sydney regions we work on creating a society where people with autism and their families lead rich, full and rewarding lives.

- ✓ Provide support groups, social groups, kids clubs and information days
- ✓ Use volunteers with lived experiences who understand the needs and issues first hand to run our activities
- ✓ Connect people through Secret Status Facebook pages to communicate with the network, on a local area level, or within 'Common Ground' groups.
- ✓ Connect people from same cultural or language backgrounds for mutual support
- ✓ Our website contains no ads and services or businesses listed are member recommended from personal experiences.
- ✓ We promote credible research projects to enable people to support those working to create a better, more inclusive future for our children.
