Summary

Q1 Project Name

Blacktown School Holidays Autism Kids Program

Q2 Brief Project Description (250 words max)

Children with autism typically struggle to find activities suitable for them to participate in mainstream environments. When the routine of the school term is broken it can cause more anxiety and isolation for them. By introducing suitable social activities during each school holiday period they have a place to go to, meet other children who are like them and participate in low impact fun and social activities.

Q3 Please provide an outline of your project (500 words max)

Each school break, we provide simple family activities for children on the autism spectrum to participate. we include their parents and their siblings in these. the activities range from watching a DVD together or a crafts day or a family BBQ. The objective is to get the kids out of the house and give them the type of social experience which will not cause further anxiety, and make them more confident to want to be more social. playing with other children who will not judge them or place higher expectations on their limited ability to cope helps develop their social skills. it also enables their siblings to meet others who understand their lives as a sibling of a disabled brother or sister. Parents meet through such events and form their own social and support circles with people who understand them.
