## Summary

### Q 1. Project Name

Autism Social Families Inner West

### Q 2. Brief Project Description (100 word maximum)

Children with autism typically struggle to find activities suitable for them to participate in typical environments. When the routine of the school term is broken it can cause more anxiety and isolation for them. By introducing suitable social activities during each school holiday period they have a place to go to, meet other children who are like them and participate in low impact fun and social activities.

## Project Details

### Q 3. Please provide an outline of your project (250 words)

Each school break, we provide simple family activities for children on the autism spectrum to participate. We also include their parents and their siblings in these. The activities range from watching a dvd together or a crafts day or a family bbq. The objective is to get the kids out of the house and give them the type of social experience which will not cause further anxiety; helping to make them more confident and more social. It's important they can play with other children who will not judge them or place higher expectations on their limited ability to cope. it also enables their siblings to meet others who understand their lives as a sibling of a disabled brother or sister. Parents meet through such events and form their own social and support circles with people who understand them.
